

PERFORMANCE LUBRICATION

PRODUCT INFORMATION

GLOBAL MOTOSIERRAS 150

Neutral and paraffin-based lubricant

DESCRIPTION

A paraffin-based and neutral lubricant with high viscosity that gives it a **“high adhesiveness”** suitable for the lubrication of high-performance chainsaw chains (professional machinery for forestry work).

PERFORMANCE

- High smoothness and adherence.
- Strong lubricating ability.
- Low consumption and oil losses.
- Good anti-wear ability.

CONDITIONS OF USE

- Reduced oil consumption.
- Lower temperature.
- Long chain life.

TECHNICAL FEATURES

DENSITY AT 15°C:	0.870	FREEZING POINT:	-12°C / 10.4 F
VISCOSITY AT 40°C:	150 mm ² /s	FLASHPOINT:	230°C / 446 F
VISCOSITY INDEX:	80		

Rev. 02/24
