

PERFORMANCE LUBRICATION

PRODUCT INFORMATION

CHAIN LUBE DRY SPRAY

Road motorcycle chain lubricant

DESCRIPTION

Chain lube dry is a PTFE lubricant for all types of motorcycle chains, developed to provide maximum protection under the most severe conditions both on the road and on urban streets.

PERFORMANCE

Chain lube dry is a highly penetrating lubricant, specially formulated for motorcycle chains with or without seals. Highly resistant to centrifugal forces, water and high temperatures.

- It spreads rapidly between moving parts.
- It incorporates a viscous anti-wear oil that reduces friction by sticking to the chain.
- It is completely waterproof and provides maximum lubrication and rust protection.
- It is long lasting, repels water and does not retain dirt.
- It is not flammable.
- It does not come off due to the effect of centrifugation.

CONDITIONS OF USE

- Clean the chain with GRO Chain cleaner.
- Shake before use.
- Apply along the inside of the chain.
- It adheres to the chain after a few minutes of drying.
- To extend the life of the chain, it is recommended to repeat this operation every 1,000 km.

TECHNICAL FEATURES

VISCOSITY AT 100°C: 28 mm²/s
FREEZING POINT: -4°C / 24.8 F

Rev. 11/23
