PRODUCT INFORMATION

GCC 50% G12 EVO LONG TIME

Ready-to-use coolant

DESCRIPTION

Ready-to-use ethylene glycol-based high-performance coolant with state-of-the-art PSi-OAT corrosion protection technology for modern high-performance engines. With PSi-OAT technology, organic acids work together with mineral inhibitors to achieve the best possible protection.

This PSi-OAT coolant has been specifically designed to protect modern combustion engine cooling systems made of aluminium and aluminium alloys. Basically it can be mixed with most OAT MEG-based coolants, but for the best possible corrosion protection we recommend using only this PSi-OAT coolant.

This product is also recommended for VW specification G13 (VW TL 774 J) and is compatible with refrigerants meeting the above specifications: G12 (VW TL 774 D), G12+ (VW TL 774 F), G12++ (VW TL 774 G).
